

PORT ROYALE

BRING YOUR PROJECT TO SAFE HAVEN

Port Royale supports yacht-centered businesses providing reliable, diligent and result-oriented naval architecture, engineering and PM services:

Design offices:

- General Arrangements
- Evaluation and optimization of designs
- Weight calculations
- Intact and damaged stability
- GT calculations
- General Construction drawings
- Strength calculations

Engineering offices and yards:

- Project management
- Budgeting and forecasting / hour control
- Weight estimations and reports
- Class and Flag certification process
- Purchasing support
- Drafting work
- Production support

"On behalf of Heesen Yachts, I would recommend Port Royale as an engineering partner. They have a solid background in engineering and "delivery in time" is written in their engineering DNA."

Jos Verbruggen - Manager Shipbuilding Engineering - Heesen Yachts
